

Student Voices :

Students use Canva to express their ideas through simple and creative activities like advertisements, posters, story pages, and poem pages. While making advertisements, they learn to add pictures and write short, catchy lines. In poster making, they use colours, shapes, and neat text to share an important message. Story page creation helps them choose characters, backgrounds, and write 2–3 sentences to show their story clearly. In poem posters, students write small poems and decorate them with matching images. These activities together build their confidence, creativity, and digital design skills in an easy and enjoyable way.

Project Report and Skill Development

Canva Creators

- Project Goals:**
- Develop students' creativity through digital designing on Canva.
 - Improve basic skills like selecting templates, adding images, and typing text.
 - Encourage neat layout, colour sense, and simple design skills.

- Process/ Steps:**
- Teach them how to insert pictures, shapes, and stickers.
 - Help them type short lines, titles, or poems clearly and neatly.

- Skills Learned :**
- Storytelling ability
 - Poem-writing ability
 - Observation and attention to detail
 - Confidence in presenting work

Challenges and solutions :

Students may struggle with choosing templates or inserting pictures, and sometimes find it hard to type short lines neatly. These issues are solved by giving simple options, guiding them step-by-step, and providing small text examples to support them.
