

Club project spotlights :

- Students worked on an eco-friendly craft project – Designing and Making Colourful gift hampers using reusable, recyclable and biodegradable materials.

Student Voices :

- students felt proud when their basket was ready. It looked so colourful and pretty!"
- They loved decorating our own gift baskets – it felt like creating a special surprise!"

Project Report and Skill Development

Deeper Dive

Ramandeep Kaur 6/12/2025

- Project Goals:**
- To build fine motor skills through cutting, pasting, folding, and arranging items.
 - To encourage teamwork as children share materials and ideas.

- Process/ Steps:**
- Select a small or medium basket suitable for holding the items.
 - Add ribbons, flowers, beads, stickers, or lace around the baskets to make it attractive.

- Skills Learned :**
- Aesthetic Sense – choosing colours, materials, and decoration styles.
 - Decision-Making – selecting what to include in the hamper.

Challenges and solutions :

Students get confused about colour combinations.
Show 2–3 sample baskets or give a simple colour theme (red–yellow / blue–white).
