

Canva Creators Club

Student Voices :

Students use Canva to express their ideas through simple and creative activities such as creating story points posters and New Year posters. While making story points posters, students learn to organize their ideas, add suitable pictures, and write short, clear points to present their stories effectively. In New Year poster making, they use bright colours, shapes, and neat text to share greetings and positive messages. These activities help students understand how to combine images and words in a meaningful way. Overall, the tasks build their confidence, creativity, and basic digital design skills in an easy and enjoyable manner.

Project Goals:

- Develop students' creativity through digital designing on Canva.
- Improve basic skills like selecting templates, adding images, and typing text.
- Encourage neat layout, colour sense, and simple design skills.

Process/ Steps:

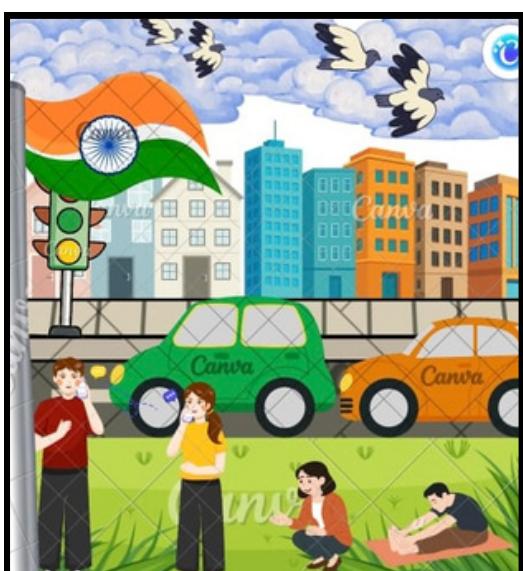

- Teach them how to insert pictures, shapes, and stickers.
- Help them type short lines, titles, or poems clearly and neatly.

Skills Learned :

- Storytelling ability
- Poem-writing ability
- Observation and attention to detail
- Confidence in presenting work

Challenges and solutions :

Students may struggle with choosing templates or inserting pictures, and sometimes find it hard to type short lines neatly. These issues are solved by giving simple options, guiding them step-by-step, and providing small text examples to support them.
